

SAS SOKI cylinder connection set

The SOKI SAS cylinder connection set enables the pump assemblies: SOKI plus, SOKI 6 plus or SOKI 7 plus to be fitted directly to the cylinder. One part of the cylinder connection set is fitted to the cold side of the cylinder, and the required SOKI is mounted directly onto the set. The second part of the set (incl. thermometer) is fitted to the hot side.

Type	SOKI SAS
