

## SOM 8 electronic comfort solar control unit

---

The SOM 8 electronic comfort solar control unit features a clear control concept and many application options. It regulates solar heating systems for large and small installations alike, incl. DHW heating and central heating backup. The multi-functional four-line LCD makes reading current data easy. The multi-lingual guide through the menus makes the operation easy and precise. The controller has seven variable standard systems pre-programmed. These can be adapted to the individual solar and general heating systems with a great number of additional functions and options. The controller offers up to two integrated heat meters and the control of a weather-compensated heating circuit. The SOM 8 electronic comfort is a well turned-out combination of functionality, price and design.

### The most important features

- Up to four consumers
- Flexible application in small and large systems
- High operating convenience
- Speed control

Type	
Type	SOM 8
Part no.	074350
Weight	1,10 kg
Protection (IP)	IP40
Consumer	4

Specification	
Height	260 mm
Width	216 mm
Depth	64 mm
Number of inputs	14
Number of switched outputs	9
Breaking capacity	250 V/6,3 A
